4. Because this is the first time you're signing in, you'll be taken to a screen to set your fulfillment preferences. On this screen, select your default preferences for delivery and pick up. You'll always have a chance to modify these later on the site.

Preferred Bill To Information
Need to change billing information?

- 5. Select your billing address, then your preferred delivery address and preferred pickup branch. You do this by first selecting the state. This narrows down branches and only displays locations within that state.
- 6. After you choose your preferred branch, you can set if you'd to have orders delivered or if you'd like to pick up orders. Again, you'll be able to easily change this once you're shopping or even checking out.
- 7. Finally, if you'd like to save these preferences to your account and skip this screen when you sign in again, simply keep the box in 'Save Preferences' checked.
- 8. Tap "Save & continue" when you're done.

9. Now you're signed in. You now are able to view product information and pricing, check inventory availability, manage your account and more!
